Office: Econ 112
Classroom: ECON 5
Class Time: 9:00-10:15 a.m. MW
Office Hours: 10:30-12:30 and 3:00-4:00 p.m. on Monday

Course Description: Industrial organization studies the behavior of firms and the functioning of markets, as well as the role of public policy in promoting efficiency. The course will cover selected topics in industrial organization theory. Recommended textbooks include: (1) The Theory of Industrial Organization by Jean Tirole, MIT Press, and (2) Industrial Organization: Contemporary Theory and Practice by Pepall, Richards, and Norman, 4th edition. A good source for references is the Handbook of Industrial Organization, Vol. 1, 2, and 3. HIO3 (2007, Mark Armstrong and Robert Porter edits) surveys the major developments in IO since Tirole.

Grading: Grades are based on homework and class participation (20%), a midterm exam (40%), and a term paper (40%). You are encouraged to form study groups to discuss homework and lecture materials. Requirements for the term paper will be discussed later.

The course materials are arranged by topics (the topics are listed below), and each topic is usually covered over several classes. For homework, you are encouraged to work out the various exercise problems in Tirole, and I will also ask you to write short reviews for papers (each review is about two pages long, double spaced).

A tentative course schedule is attached. There can be changes to this schedule during the semester, which will be announced in class. It is your responsibility to update information about the course according to announcements made in class.
